of Transportation

**Federal Highway  
Administration**

**MOT** MARYLAND DEPARTMENT OF TRANSPORTATION  
STATE HIGHWAY ADMINISTRATION

The following Environmental Assessment Form is a requirement of the Maryland Environmental Policy Act and Maryland Department of Transportation Order 11.01.06.02. Its use is in keeping with the provisions of 1500.4(d) and 1506.2 and 06 of the Council of Environmental Quality Regulations, effective July 31, 1979, which recommend that duplication of Federal, State, and local procedures be integrated into a single process. The checklist identifies specific areas of the natural and social-economic environment, which have been considered while preparing this environmental assessment.

The reviewer can refer to the appropriate section of the document, as indicated in the “Comment” column of the form, for a description of specific characteristics of the natural or social-economic environment within the proposed study area. It will also highlight any potential impacts, beneficial or adverse that the action may incur. The “No” column indicates that during the scoping and early coordination processes, that specific area of the environment was not identified to be within the study area or would not be impacted by the proposed action.
